OBJECTIVE

Aspiring software engineer seeking a role within a progressive organization that provides opportunities to elevate my programming expertise and contribute to innovative projects.

EDUCATION

Hajee Mohammad Danesh Science & Technology University, Dinajpur Jan. 2023 – Expected Jun.2024
Master of Science in Computer Science and Engineering

- **CGPA**: 3.75/4.0 [Up to 1st semester]
- **Coursework**: Advanced Algorithms, Advanced Databases, Software Project Management

Hajee Mohammad Danesh Science & Technology University, Dinajpur Mar. 2016 – Nov. 2022
Bachelor of Science in Computer Science and Engineering

- **CGPA**: 3.31/4.0
- **Coursework**: Data Structures, Algorithms, Databases, Computer Systems, Machine Learning

SKILLS

Programming Languages: **Java, C, C++.**
Databases: **Google Firebase, MySQL, SQLite.**
Frameworks: **Android Studio.**
Version Control System: **Git, Github.**
Good understanding of **Databases, Algorithms, Data Structures and OOP.**
Adequate for **Debugging, Testing, and Creating Critical Cases.**

PROJECTS

GalleryApp

- Designed and implemented an intuitive user interface to showcase projects effectively, enhancing user experience and engagement.
- **Key achievements:** implemented listView, Adapter Concept and MediaStore API.
- **Source:** https://github.com/mazharul-15/GalleryApp

MeloMix

- Built a music app with Relative Layout and File System integration for MP3 file access.
- Developed the app's architecture and design using Relative Layout.
- **Key achievements:** implemented Relative Layout, File System Accessing, MediaPlayer.
- **Source:** https://github.com/mazharul-15/MeloMix

SkySync

- Developed a weather application to provide real-time weather information to users.
- Implemented location-based services for accurate weather forecasts.
- **Key achievements:** implementation and integration of JSON API.
- **Source:** https://github.com/mazharul-15/SkySync
